REPUBLICAN RATIFICATION MEETING IN THE

A grand ratification meeting was held last

the Republican party. The meeting was presided over by Mr. Benjamin B. Dumville, President of the District Association. The hall was tastefully decorated with banners and appropriate motioes.

The first specker introduced was the Hon. Senator Warwick of California, who claimed to be a native of this city, but who has been for 16 years past a resident of the Golden State. Never since the Government was formed, he said, had a political campaign taken place fraught with issues so important as those which center into this one; the stability and safety of Republican institutions were involved in the contest. The line war sprang out of the fact that there was one party which contended for the right of free speech on all political questions wherever the banner of the country waved, while an opposing party denied this right, and the strife was continued until the right was secured. The speaker then alladed to the national candidates, and asked who they were! Ulysses S. Grant, the foremost man in the country, and Schuyler Coffax, the ablest of her young Statesmen. What the Republican party now asked was simply that every citizen, whether white or black, may sit under his own vine and figure—with none to molest him or make him afraid—it asked simple justice for all.

The following resolution was then adopted:

Horace Greeley then addressed the meeting. He discussed the financial issues involved in the canvass, and read the platform of each party touching these topics. The Republican party recognized the national debt as a sacred obligation, and would reduce the taxes just as specifical Lincoln, and guest of Her Malesty.

speedily as honesty allows. We owe twenty-five hundred millions, and the British Government owes four thousand millions; and, though we pay double the rate of interest that Great Britain does, still the British debt is selling in open market for one-fourith more than ours. Why is this! Escause, owing to sentiments put forth in the Democratic platform, empitalists doubt whether our debt will be paid in colon, and they be put in colon and lave no such doubt relative to that of Britain. By the Republican party, we might be enabled to refund our indebtedness in leans at four per cent, and in the course of thirty or forty years pay off the whole debt merely by the saving of interest. All the Secretaries of the Treasury-Mr. Chase, Mr. Fessenden, and Mr. McCulloch—asserted, when questioned on this point, that it was always mended the honds issued for the war debt would be paid in coin. Brother Frank moved that a committee of the Catskill as announced, in the advertisement. five from each district be appointed to consider the refive from each district be appointed to consider the report on the Orphan Asylum in this city. The motion was amended so as to have the report printed and referred to the district committee. A brother objected to this, as he believed there was enough to be done without attending to institutions outside of the order. This objection surprised Brother Frank, who believed it necessary that something should be done for the orphan boys who had become too old to longer remain in the institution. The previous question was called for, and the motion to print the report and refer it to the District Grand Lodges was carried. The rules were suspended so that no business should be transacted, unless by unanimous consent, until the report of the Constitution was disposed of. The Convention them went late Committee of the Whole, with Brother P. W. Frank in the chair, and the several articles of the constitution were taken up and passed after a few slight amendments.
